WATER STORAGE SOLUTIONS

WHATEVER YOUR NEED, SINTEX HAS A SOLUTION.

As the pioneers in water storage solutions, we at Sintex believe in thinking innovatively, to make life simple for you. This is what you experience with our comprehensive range of products, designed with your needs in mind. Crafted from 100% virgin, food grade material, our tanks maintain the highest standards of hygiene, and are built strong to last a long, long time.

Read on, to know more about our range of water storage solutions...

SINTEX PURE

ANTIBACTERIAL INNOVATION WITH SILVER NANO TECHNOLOGY

Rest assured of Hygiene and Safety – this technology prevents growth of bacteria in the tank.

UNMATCHED FEATURES, UNIQUE BENEFITS

- **100% Virgin Plastic:** For better strength, durability & flexibility.
- **Food Grade Plastic with FDA Approval:** Ensures safety & hygiene of stored water.
- **Phthalate-Free Granules & Additives:** No cancer-causing materials are present.
- **100% UV Stabilised Tank and Multi-layered Lid:** Sun rays cannot reach the water; hence, no algae formation.
- **Multiple Layers:** Outer (White/Colour) for aesthetic looks, Middle (Black) for UV protection, and Inner (Blue/Grey) to see water level.
- **Roto Moulding Manufacturing Process:** Provides flexibility to take care of cyclical expansion and contraction due to temperature changes and filling/refilling of tank.
- **Aesthetic Looks**
- **Multi-ribbed Design:** Ensures long-lasting strength & durability.
- **Colour Options:** Available in White, Blue, Green and Yellow.

VIRGIN PLASTIC

FOOD GRADE PLASTIC

100% UV STABILISED

ANTI-BACTERIAL

SINTEX ACE

FIRST TIME IN INDIA: INTERNATIONAL DESIGN WITH SIDE MANHOLE

Easy to clean, check the inside without having to climb on the tank.

UNMATCHED FEATURES, UNIQUE BENEFITS

- **100% Virgin Plastic:** For better strength, durability & flexibility
- **Food Grade Plastic with FDA Approval:** Ensures safety & hygiene of stored water
- **Phthalate-Free Granules & Additives:** No cancer-causing materials are present
- **100% UV Stabilised Tank and Lid:** Sun rays cannot reach the water; hence, no algae formation
- **Threaded Lid:** Heavy winds, birds and animals cannot open the lid, thus maintaining safety & hygiene
- **Two Layers:** Outer (Black) for UV protection and Inner (Blue) to see water level easily
- **Roto Moulding Manufacturing Process:** Provides flexibility to take care of cyclical expansion and contraction due to temperature changes and filling/refilling of tank
- **Modern, World-class Looks**
- **Multi-ribbed Design:** Ensures long-lasting strength & durability

SINTEX UNDERGROUND WATER TANKS - SUMPS

EASY TO TRANSPORT AND INSTALL

Strong, yet lightweight; can be relocated.

UNMATCHED FEATURES, UNIQUE BENEFITS

- **100% Virgin Plastic:** For better strength, durability & flexibility
- **One-piece Moulded:** No joints, seams or welds
- **Computerised Design**
- **Non-porous** and does not allow water to get contaminated
- **Rustproof and Leak-proof**
- **Hygienic and suitable for potable water**
- **Economical**
- **Impermeable to roots of trees**
- **Can be installed directly without a side wall**
- **Space Saver**
- **Can endure earth's pressure**
- **Maintenance-free**

SINTEX UNDERGROUND WATER TANKS

DURABILITY AND COST-EFFECTIVENESS IN ONE

Underground tanks made from Fiber Reinforced Plastic that can endure earth's pressure and make the tanks strong and more durable.

UNMATCHED FEATURES, UNIQUE BENEFITS

- **100% Virgin Plastic:** For better strength, durability & flexibility
- **Food Grade Plastic with FDA Approval:** Ensures safety & hygiene of stored water
- **Rustproof and Leak-proof**
- **Lightweight; easy to transport and install**
- **Non-porous** and does not allow water to get contaminated

SMC PANEL WATER TANK

EASY TO INSTALL AND ASSEMBLE

Designed for your convenience and safety.

UNMATCHED FEATURES, UNIQUE BENEFITS

- **Up to 10 lakh litres** water storage tank
- **Food Grade Plastic with FDA Approval:** Ensures safety & hygiene of stored water
- **Easy to install** by plumbers and general technicians using conventional tools, can be installed within 4 days
- **Easy to assemble at the site,** and increase or decrease the size as required
- **Easy to dismantle** and shift in case of change in site
- **Weatherproof, waterproof, moisture-proof and rotproof**

Series GS-PT SMC Panel Tanks

WATER TANKS – MYTHS AND FACTS

MYTH: Local tanks offer exact water storage capacity as promised.

FACT: Local competitor tanks provide 10% to 15% less water storage than what they claim.

Whereas, Sintex tanks offer exact water storage capacity, as promised.

MYTH: Only virgin (non-recycled) plastic is used in making all water tanks.

FACT: Many of our competitors' tanks are manufactured using recycled plastic, which may contain toxic chemicals, lead, phthalates (a carcinogenic substance), etc.

Sintex tanks are made with 100% virgin plastic and hence, are 100% safe.

MYTH: Competitor tanks are heavier, so that means they are sturdier too.

FACT: To provide strength and bonding, many local brands add chemical substances like Calcium Carbonate, Fillers, etc. in tanks, making the water stored in them hazardous.

Unlike them, Sintex tanks are thoughtfully developed. They are lighter, yet sturdier and safer.

MYTH: The harder the tank, the more durable it is.

FACT: Overhead tanks have to expand and contract, depending on the quantity of water stored and the surrounding temperature. If a tank is hard and rigid, it is prone to crack formation and breaking.

Sintex uses LLDPE material in the manufacturing process, making the tanks more flexible and long-lasting.

MYTH: Our competitors make tanks using only food grade plastic.

FACT: Many of our competitors manufacture tanks using recycled plastic, which may contain additives, fillers, toxic chemicals and carcinogenic substances like phthalates.

Sintex tanks are made with food grade plastic and hence ensure hygienic water storage.

MYTH: Our competitors sell tanks that have 4, 5, 6 or even 7 layers. This means they are much stronger.

FACT: Remember, more layers in a tank don't make it stronger! Adding any more layers beyond the 3 that Sintex tanks have does not bring any value or benefit to the consumers. Instead, it makes the tank unnecessarily rigid and heavy.

MYTH: All non-black tanks of the competition are UV stabilised like Sintex tanks.

FACT: Hardly any of our competitors' non-black tanks provide complete UV protection. This leads to algae formation, making the water stored in such tanks unhealthy.

On the other hand, every Sintex tank – black or non-black – is UV protected.

MYTH: The lid of a tank does not need UV protection.

FACT: Being the topmost part of a tank, the lid needs UV protection more than any other surface of a tank. Non-black tanks of competition brands have no UV protection on their lids.

Sintex is the only brand in the country that offers complete UV protection on the lids of non-black tanks.

MYTH: Every black tank is a Sintex tank.

FACT: Remember the old saying 'all that glitters is not gold'? With Sintex, it is no different. Customers go to a shop to buy Sintex but end up buying some other black tank from any of our competitors.

All Sintex tanks have our logo. Our customers should look for it.

MYTH: Local tanks offer a 7, 8, 9 and 10-year warranty, and that makes them better.

FACT: Most of our competitors could be fly-by-night operators who may shut shop anytime. Thus, the warranty given by them anyway stands invalid.

Sintex offers a genuine one-year warranty against manufacturing defects.
